# Vura site changes for review

Every change on the branch `feature/cart-badges-and-bottle-lasts`, shown on the real vuraskincare.in pages at phone size. The "After" shots are the live page with the new text and styles swapped in, so they show exactly how each change sits in the design.

7 CHANGES | 4 BANNER OPTIONS | NOT LIVE YET

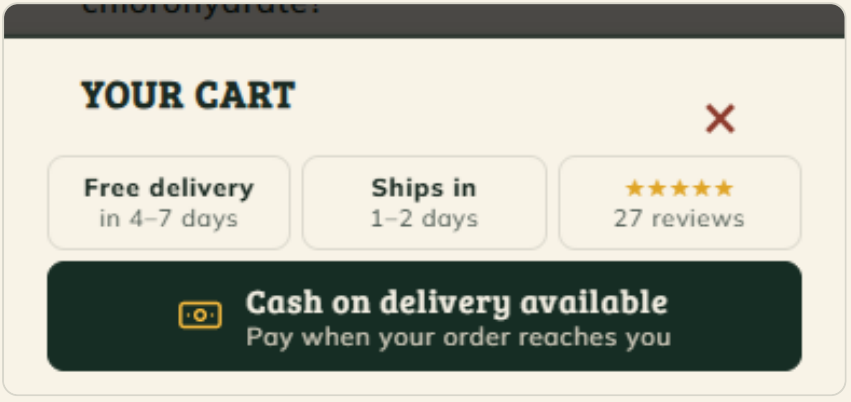

## What changes

### Cart banner

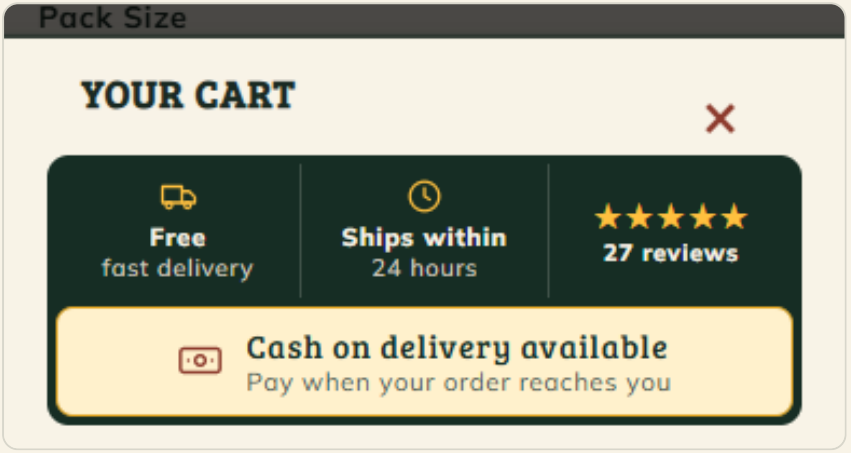

Cart drawer, every page

Free delivery loses "4–7 days" and becomes "Free / fast delivery". Shipping now says "Ships within 24 hours". The three cards now sit in one forest green strip with saffron icons and bigger saffron stars. Cash on delivery becomes a light gold card inside the strip (option C).

AFTER

### Product photo: 3-pack slide

Product page, 2nd gallery photo

Bottle life goes from 2 months to 1 month. "Three bottles. Six months of fresh." becomes "3 bottles. 3 months of fresh." The written-out version wrapped to two lines and ran into the "this one's on us" sticker, so the short form keeps it on one line.

### FAQ: how long one bottle lasts Product page FAQ

Answer now says about 1 month.

LIVE NOW

**How long does one bottle last?**

If you use it daily, about 2 to 3 sprays each time, one 50 ml bottle usually lasts you about 2 months.

AFTER

**How long does one bottle last?**

If you use it daily, about 2 to 3 sprays each time, one 50 ml bottle usually lasts you about 1 month.

## FAQ: how long one bottle lasts

Home page FAQ

Same answer, same fix.

LIVE NOW

How long does one bottle last?

If you use it daily, about 2 to 3 sprays each time, one 50 ml bottle usually lasts you about 2 months.

AFTER

How long does one bottle last?

If you use it daily, about 2 to 3 sprays each time, one 50 ml bottle usually lasts you about 1 month.

## Landing page price line

/pages/fitkari, top of page

Now reads "50 ml / Lasts about 1 month". The per-day cost line is removed, here and when the 3-pack is picked.

LIVE NOW

₹450 50 ml · lasts about 2 months
That's about ₹7 a day

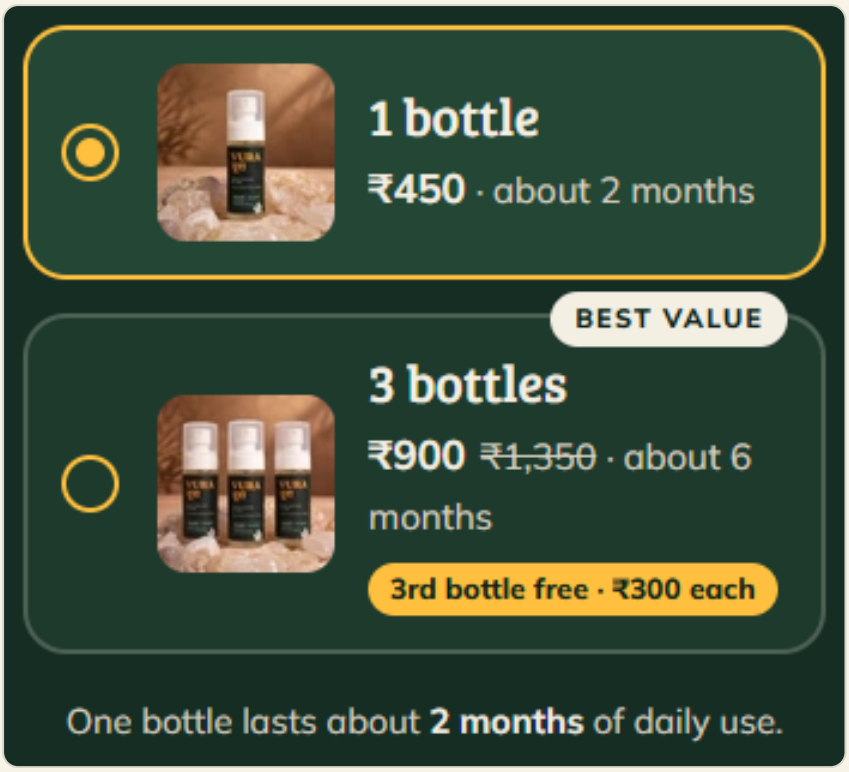

AFTER

₹450 50 ml
Lasts about 1 month

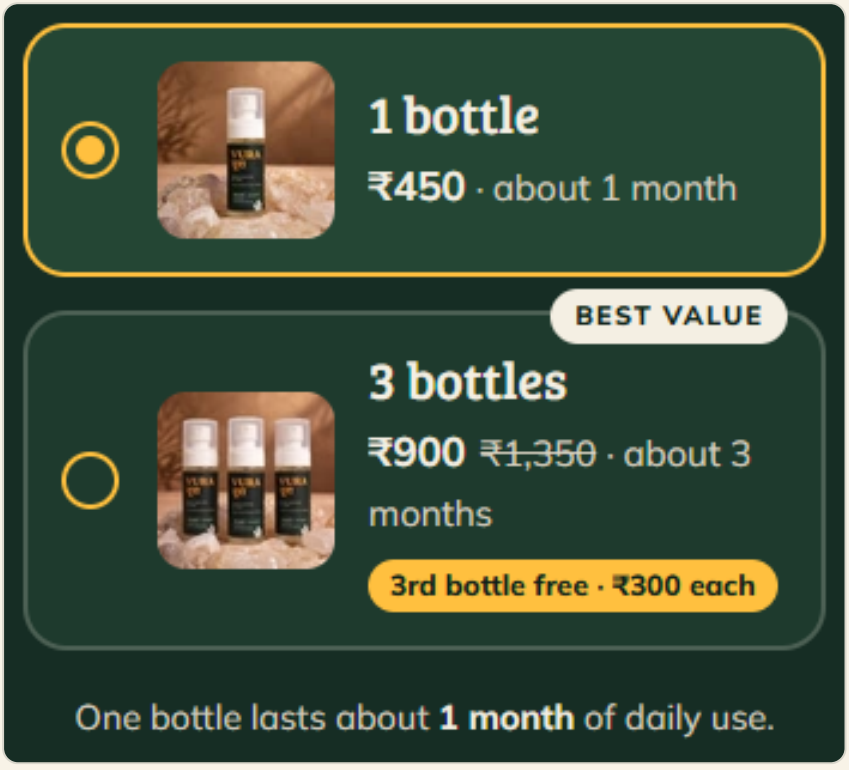

## Landing page pack picker /pages/fitkari, offer section

1 bottle: about 1 month. 3 bottles: about 3 months. The note under the packs matches.

### Landing page FAQ /pages/fitkari, FAQ

Answer now says about 1 month.

LIVE NOW

**How long does one bottle last?** −

About 2 months with 2–3 sprays on each underarm every day.

AFTER

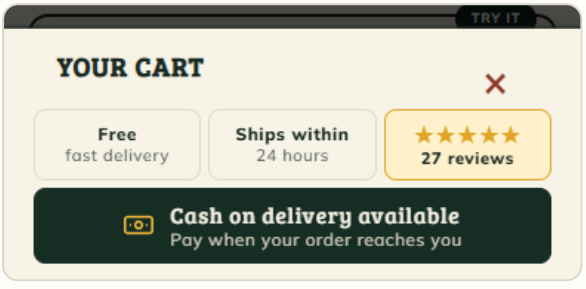

**How long does one bottle last?** −

About 1 month with 2–3 sprays on each underarm every day.

## Cart banner: the four looks we compared

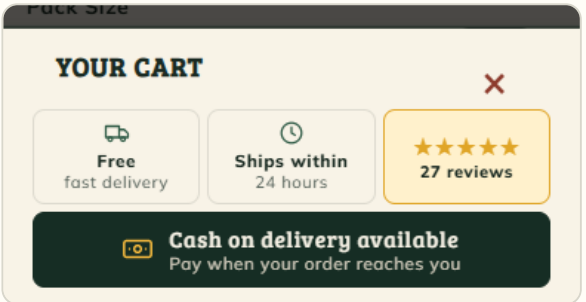

All four use the same words. Only colour and icons change, and all stay inside the Vura palette of forest green, saffron and terracotta.

### A Gold reviews card

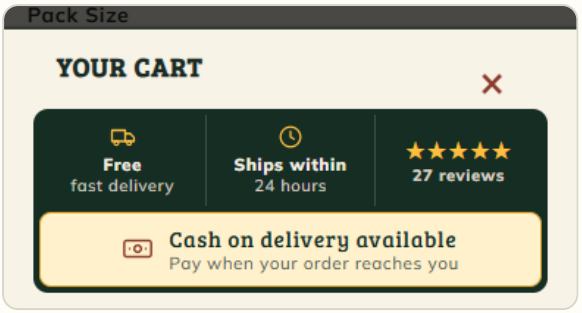

Only the reviews card changes colour, so it is the one the eye lands on.

### B Gold reviews + small icons

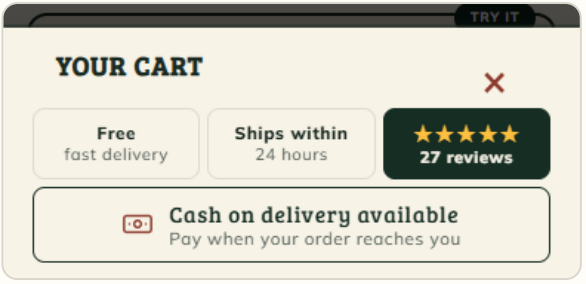

Adds a truck and a clock above the first two cards. Faster to scan on a phone.

C **One forest strip** CHOSEN

All three cards sit in one dark green bar with saffron icons and stars. Cash on delivery becomes a light gold card underneath. Most premium and most on-brand. Chosen, and now on the branch.

D **Forest reviews card**

The reviews card turns dark green with saffron stars. Cash on delivery becomes an outlined card so the dark green is not used twice.

## Outside the theme

**Shipping policy page still says 1–2 business days**

The cart will say 24 hours. Update the policy in Shopify admin, and decide whether the product page and FAQs should say 24 hours too. They still say 1–2 days and 4–7 days.

**"COD & EMI will be restricted for this coupon"**

This comes from the checkout app and the VURA10 / SHIPNOW discount settings, not from the website code. It has to be changed in Shopify admin or the checkout app's dashboard.
